5 Bedrooms . 3 Bathrooms . 3,684 Sqft

This is a custom built, one owner, very well maintained 5 bedrooms, 3 bath home in popular Chimney Hills neighborhood located in Lakesite city limits. This home is so very deceiving. When you pull up to the cul-de-sac driveway and look up to this home, you would never believe it has 3684 SF. It's perfectly positioned and tucked on this lot. Walk into a large foyer. To the left is a huge kitchen that offers a massive island and tons of counter-space and cabinets. It's an eat-in so the dining room is all in one large room. Off the kitchen is the utility, pantry, and entrance to the main level 2 car garage. From the kitchen is the living room with a gas log fireplace and a large deck overlooking the backyard. Also on the main level is the master suite, additional bedroom, full bathroom and an office study. Downstairs host 3 additional bedrooms one which is very large, another full bath and a 2nd living area/den with a wood burning fireplace. The equipment room is very large and is used for additional storage. This home had housed a very large family and is ready for a new one. Lakesite offers garbage service 2X a week, a community pool that can be joined, picnic area, playground, ball field and more to include a city hall where it makes it very convenient to vote.
