The amount of space and the updates done to this home are amazing! Be sure to look at the photo of all of the updates which include a 20 sf tiled shower in the master, new retaining wall, new flooring, stairs, fixtures, doors, and so much more! This is a true family home. The main level has so much room and the screened in porch. Upstairs are all of the bedrooms (be sure to check out the hidden room in one of the 3 large closets in the master) with new carpet and fresh paint. In the basement is the rec room with bathroom. The multi-level decking is functional for entertaining, and go down to the firepit for even more fun. This home sits on one of the largest lots in the subdivision. Make your appointment for a tour and make it your own today!
