This is "the one." Perfectly situated on one of the best half-acre lots in all of Signal Mountain sits this gem of a home. Located on a quiet and picturesque street, this oasis of a property has a private backyard with plenty of room to play and entertain. If for some reason more space is needed, the hidden neighborhood park is just a few steps out your front door. You can also get downtown in under 20 minutes. The tranquil surroundings are carried inside the home as well. This functional home is enveloped in light and comfort and has enough room to allow the family to spread out and grow. The floor plan encompasses four spacious bedrooms (potentially 5 bedrooms) with plenty of room for study, sleep and storage. There are also three well-maintained bathrooms, a sleek and stylish kitchen that flows through to the dining room, and an amazing private rear patio and lush backyard. The master bedroom, complete with two walk-in closets and ensuite bathroom, ensures a private space to enjoy some peace. Downstairs you will find a partially finished walk-out basement that has a completed rec room and bedroom, in addition to an abundance of storage. This space has room to grow and could be a perfect mother-in-law suite or basement apartment. The current owners have meticulously cared for this home...
