This stunning home, located in a desirable Lookout Mountain TN neighborhood, has been almost completely renovated, including a major addition in 2009 by Rob Vannoy. The beautiful, classic details of the home combined with all of the newer updates and features work together to make this home fabulous, both inside and out. The main level living and dining areas are spacious and provide a wonderful flow for entertaining. A true chefs kitchen features high end appliances, a double slab honed marble center island, and all of the custom finishes needed for an absolute dream kitchen. Adjacent to the kitchen is a huge great room with fireplace, a wet bar, and opens out to a screened-in porch, also with a fireplace. On the upper level, a private master suite and 3 additional bedrooms can be found, along with another bedroom recently converted to a laundry room and office. This gorgeous home offers mature landscaping, an attached garage, a garden room, 4 fireplaces, and many more features than can be listed. It is truly a showplace, move-in-ready, and must be seen to truly appreciate all it has to offer.
