Built with a designer's touch! Exceptional new construction with quality finishes with a look seen in the best contemporary home magazines. Generous, open concept floor plan emphasizes family living, combining a contemporary kitchen (with beautiful matte-finish quartz counter tops - no typical stone here) with a great room graced by a gas fireplace. Dining and living areas complete the experience! A glass wall with sliding glass door opens up onto the covered back porch offering multiple indoor-outdoor living opportunities. Master on the main features two walk-in closets and an en suite bath with a soaker tub, glass enclosed shower, and separate vanities. Two bedrooms and a shared bath, as well as a laundry room, are also conveniently located on the first floor. Upstairs finished bonus room with geometric wall feature is to die for. You'll love this home--the attention to detail is evident in every square foot! This won't last long!
