Townhome on tree-lined street in Downtown Chattanooga! This is an opportunity that does not come along often, a chance to live on Cherry Street. This three bedroom home also includes a fully equipped studio suite above the oversized detached garage. Traditional elegance is the current styling palate with touches of modern farmhouse sprinkled throughout. Beautiful architectural details shine highlighting oversized crown and base boards, large closets for extra storage and private cobblestone courtyard. The current owners elected to have large hall closets rather than installing an elevator, although the option to convert is readily available. Professional grade Kitchenaid appliances and a perfectly smart layout ensures any home chef convenience and efficient working stations. Walking distance to all of the popular eateries, shops and recreational activities including steps to the walking bridge at Walnut Street opens up endless opportunities to meet and greet neighbors.
