**4 Bedrooms . 2 Full 2 H Bathrooms . 2,392 Sqft**

For the first time in its history, this multi-generational family home is for sale. What was originally 3000 acres of the Nesbitt Farm, this land has been mentioned in historical books! The family built the home with a repurposed bank teller window as the centerpiece of the living room to look out over the beautiful countryside morning and evening. Knotty pine walls, hardwood floors, and a stunning fireplace built from quarried rocks that were once part of the "Rock House" on another parcel of the property. 6.86 acres, with a fenced pasture waiting for your horses or cattle is ready. Put your updated touches on this sturdy 4 bedroom farm home and enjoy all Mother Nature has to offer in a quieter part of our area

Generational family home that is ready for it's new owners to put their own touches on! Almost 7 acres of land with a fenced front pasture already in place.

Charming accents such as real wood shiplap walls, bright open windows in the living room, real hardwood floors, brand new carpet in bedrooms and den, sitting porch out front, enormous fireplace as the center of the den off the garage, and ample mother nature around you to enjoy
